

# *The* Beambridge Inn *at Wellington*

## **COVID19 STATEMENT**

Karen and I are constantly reviewing best practice when considering the Coronavirus situation, taking into account the guidelines presented by government officials and Public Health England, amongst others.

With the support of our customers, we have come to the decision to remain open at this time. Should this situation change, we will continue to advise you through our social media and internal platforms.

The safety of our customers is always at the fore of our minds and the team have received additional support, training and the latest updates in ensuring that we continue to deliver the very best in standards to ensure your safety as best we can.

Clearly these are unique and challenging times for personal and business reasons.

We understand that for many, total self-isolation is their only form of defence and we send our love and best wishes to those who must undertake this solitude. We also understand that many guests may feel that avoiding the pub is a good measure to prevent the spread of infection and of course, the choice remains entirely yours as to whether you use the pub at this time.

For those who can, we are open; we are here to serve you as always and more than ever, local businesses like ours thoroughly appreciate your support.

Thank you for your continued custom.

Karen & Craig Holmes, Owners
